

GE Monogram®

Use and Care Guide

Wine Chiller
ZDW24

Consumer Information

Wine Chiller

Introduction

Your new Monogram wine chiller makes an eloquent statement of style, convenience and kitchen planning flexibility. Whether you chose it for its purity of design or the assiduous attention to detail, you will find that your Monogram wine chiller's superior blend of form and function will delight you for years to come.

The information on the following pages will help you operate and maintain your wine chiller properly.

If you have any other questions—in the USA, please call the GE Answer Center® 800.626.2000.

In Canada, please call 1.888.880.3030.

Before using your wine chiller

Read this guide carefully. It is intended to help you operate and maintain your new wine chiller properly.

Keep it handy for answers to your questions.

If you do not understand something or need more help, call in the USA:

GE Answer Center®

800.626.2000

24 hours a day, 7 days a week

In Canada, call 1.888.880.3030.

Write down the model & serial numbers

You will find them on a label on the lower front frame.

These numbers are also on the Consumer Product Ownership Registration Card packed separately with your wine chiller.

Before sending in this card, please write these numbers here:

Model Number

Serial Number

Use these numbers in any correspondence or service calls concerning your wine chiller.

*If you received
a damaged
wine chiller*

Immediately contact the dealer (or
builder) that sold you the wine chiller.

*If you
need
service*

To obtain service, see the Consumer
Services page in the back of this guide.

We are proud of our service and want you
to be pleased. If for some reason you are
not happy with the service you receive,
here are steps to follow for further help.

For customers in the USA:

FIRST, contact the people who serviced
your appliance. Explain why you are not
pleased. In most cases, this will solve the
problem.

NEXT, if you are still not pleased, write all
the details—including your phone
number—to:

Manager, Customer Relations
GE Appliances
Appliance Park
Louisville, KY 40225

For customers in Canada:

FIRST, contact the people who serviced
your appliance. Explain why you are not
pleased. In most cases, this will solve the
problem.

NEXT, if you are still not pleased, write all
the details—including your phone number
to:

Manager, Consumer Relations
Camco Inc.
1 Factory Lane, Suite 310
Moncton, N.B. E1C 9M3

IMPORTANT SAFETY INSTRUCTIONS

READ AND SAVE THESE INSTRUCTIONS

BEFORE IT IS USED, THE APPLIANCE MUST BE PROPERLY INSTALLED AND LOCATED AS DESCRIBED IN THIS GUIDE.

⚠ DANGER : RISK OF CHILD ENTRAPMENT

Child entrapment and suffocation are not problems of the past. Junked or abandoned refrigeration products are still dangerous. . . even if they will sit for “just a few days.” If you are getting rid of your old appliance, please follow these instructions to help prevent accidents.

Before You Throw Away Your Old Refrigeration Product:

- Take off the doors.
- Leave the shelves in place so that children may not easily climb inside.

CFC DISPOSAL

Old refrigeration products have cooling systems that used CFCs (chlorofluorocarbons). CFCs are believed to harm stratospheric ozone.

If you are throwing away an old refrigeration product, make sure the CFC refrigerant is removed for proper disposal by a qualified servicer. If you intentionally release this CFC refrigerant you can be subject to fines and imprisonment under provisions of environmental legislation.

IMPORTANTES INSTRUCTIONS DE SÉCURITÉ

LIRE ET CONSERVER CES INSTRUCTIONS

AVANT D'ÊTRE UTILISÉ, L'APPAREIL MÉNAGER DOIT ÊTRE BIEN INSTALLÉ ET SE TROUVER À L'ENDROIT DÉCRIT DANS CE GUIDE.

▲DANGER! RISQUES POUR LES ENFANTS

Les enfants pris au piège ou morts d'asphyxie sont toujours d'actualité. Les appareils de réfrigération abandonnés sont toujours aussi dangereux, même si on n'attend que "quelque jours" pour s'en débarrasser. Si vous ne gardez pas votre ancien appareil, veuillez suivre les directives ci-dessous afin de prévenir les accidents.

Avant de vous débarrasser de votre vieux appareil de réfrigération:

- Démontez les portes.
- Laissez les clayettes en place afin d'empêcher les enfants de grimper à l'intérieur.

SE DÉBARRASSER DU CFC

Les vieux appareils de réfrigération ont un système de refroidissement qui a utilisé les CFC (chlorofluorocarbones). Les CFCs sont jugés nocifs pour l'ozone stratosphérique.

Si vous débarrassez de votre vieil appareil de réfrigération, assurez-vous que le frigorigène avec CFC soit enlevé correctement par un technicien qualifié.

Si vous libérez intentionnellement ce frigorigène avec CFC vous pouvez être soumis aux contraventions et à l'emprisonnement après les stipulations des lois sur l'environnement.

IMPORTANT SAFETY INSTRUCTIONS

HOW TO CONNECT ELECTRICITY

Do not, under any circumstances, cut or remove the third (ground) prong from the power cord. For personal safety, this appliance must be properly grounded.

The power cord of this appliance is equipped with a 3-prong (grounding) plug which mates with a standard 3-prong (grounding) wall outlet to minimize the possibility of electric shock hazard from this appliance.

Have the wall outlet and circuit checked by a qualified electrician to make sure the outlet is properly grounded.

Where a standard 2-prong wall outlet is encountered, it is your personal responsibility and obligation to have it replaced with a properly grounded 3-prong wall outlet.

The appliance should always be plugged into its own individual electrical outlet which has a voltage rating that matches the rating plate. This provides the best performance and also prevents overloading house wiring circuits which could cause a fire hazard from overheated wires.

Never unplug an appliance by pulling on the power cord. Always grip the plug firmly and pull straight out from the outlet.

Repair or replace immediately all power cords that have become frayed or otherwise damaged. Do not use a cord that shows cracks or abrasion damage along its length or at either end.

When moving the appliance, be careful not to roll over or damage the power cord.

USE OF ADAPTER PLUGS (Use of adapter plugs not permitted in Canada)

Because of potential safety hazards under certain conditions, we strongly recommend against the use of an adapter plug.

However, if you must use an adapter, where local codes permit, a **temporary connection** may be made to a properly grounded 2-prong wall outlet by use of a UL-listed adapter available at most local hardware stores.

The larger slot in the adapter must be aligned with the larger slot in the wall outlet to provide proper polarity in the connection of the power cord.

When disconnecting the power cord from the adapter, always hold the adapter in place with one hand while pulling the power cord plug with the other hand. If this is not done, the adapter ground terminal is very likely to break with repeated use.

If the adapter ground terminal breaks, **DO NOT USE** the appliance until a proper ground has been established.

Attaching the adapter ground terminal to a wall outlet cover screw does not ground the appliance unless the cover screw is metal, and not insulated, and the wall outlet is grounded through the house wiring. You should have the circuit checked by a qualified electrician to make sure the outlet is properly grounded.

Use of an adapter plug will increase the clearance needed for the back of the appliance.

IMPORTANTES INSTRUCTIONS DE SÉCURITÉ

RACCORDEMENT ÉLECTRIQUE

Ne coupez ni retirez en aucun cas la troisième broche (mise à la terre) de la fiche du cordon d'alimentation. Pour votre sécurité, cet appareil doit être correctement mis à la terre.

Le cordon d'alimentation de cet appareil est muni d'une fiche à 3 broches (mise à la terre) qui se branche dans une prise mural ordinaire à 3 alvéoles (mise à la terre) pour réduire au minimum les risques du chocs électriques.

Faites examiner la prise de courant et le circuit par un électricien qualifié pour vous assurer que la prise est correctement mise à la terre.

Si la prise murale est du type standard à 2 alvéoles, il vous incombe de la faire remplacer par une prise à 3 alvéoles correctement mise à la terre.

La machine à glaçons doit toujours être branché dans sa propre prise de courant, dont la tension nominale est identique à celle indiquée sur la plaque signalétique.

Cette précaution est recommandée pour garantir un rendement optimum et éviter une surcharge des circuits électriques de la résidence, ce qui pourrait créer un risque d'incendie par surschauffe des fils.

Ne débranchez jamais l'appareil en tirant le cordon d'alimentation. Saisissez fermement la fiche du cordon et tirez droit pour la retirer de la prise.

Réparez ou remplacez immédiatement tout cordon effiloché ou endommagé. N'utilisez pas un cordon fendillé ou présentant des signes d'usure.

Lorsque vous déplacez l'appareil du mur, faites attention de ne pas la faire rouler sur le cordon d'alimentation afin de ne pas l'endommager.

FICHE D'ADAPTATION (Fiches d'adaptation non permises au Canada)

Nous vous recommandons fortement de ne pas utiliser une fiche d'adaptation à cause des risques potentiels qu'elle présente dans certaines circonstances.

Toutefois, si vous décidez d'utiliser tout de même une fiche d'adaptation, vous pouvez effectuer un **raccordement temporaire**, si les codes locaux le permettent, dans une prise de courant à 2 alvéoles adéquatement mise à la terre en utilisant une fiche d'adaptation homologuée UL, en vente dans la plupart des quincailleries.

La fente la plus longue de la fiche doit être alignée avec la fente la plus longue de la prise murale afin d'assurer la polarité appropriée pour le branchement du cordon d'alimentation.

Lorsque vous débranchez le cordon d'alimentation de la fiche d'adaptation, saisissez toujours la fiche d'une main pendant que vous tirez sur la fiche du cordon d'alimentation de l'autre.

Sinon, la borne de mise à la terre de la fiche d'adaptation risque de casser avec le temps.

Si la borne de mise à la terre de la fiche casse, **N'UTILISEZ PAS** l'appareil tant qu'une mise à la terre adéquate n'aura pas été rétablie.

Le fait de fixer la borne de mise à la terre de la fiche d'adaptation à la plaque de la prise de courant n'assure pas automatiquement la mise à la terre de l'appareil. Il faut que la vis soit en métal, non isolée, et que la prise de courant soit mise à la terre par l'entremise du câblage de résidence. Faites vérifier le circuit par un électricien qualifié pour vous assurer que la prise est adéquatement mise à la terre.

IMPORTANT SAFETY INSTRUCTIONS

USE OF EXTENSION CORDS

Because of potential safety hazards under certain conditions, we strongly recommend against the use of an extension cord.

However, if you must use an extension cord, it is absolutely necessary that it be a UL-listed, 3-wire grounding type appliance extension cord having a grounding type plug and outlet and that the electrical rating of the cord be 15 amperes (minimum) and 120 volts.

SAVE THESE INSTRUCTIONS

CORDONS PROLONGATEURS

Nous vous recommandons fortement de ne pas utiliser de cordons prolongateurs à cause des risques potentiels qu'ils présentent dans certaines conditions.

Toutefois si vous décidez d'utiliser tout de même un cordon prolongateur, il est absolument nécessaire qu'il s'agisse d'un

cordon à 3 fils avec mise à la terre pour appareils électroménagers homologué UL (aux États-Unis) ou homologué CSA (au Canada), pourvu d'une fiche et d'une prise mises à la terre de 15 ampères (minimum) et de 120 volts.

CONSERVEZ CES DIRECTIVES

Controls and Features

Wine Chiller

Remove packaging

Before using, be sure all packing materials and tape have been removed. There is a shipping bracket below the handle. Remove the bracket and replace the three screws with the plug buttons.

If you are discarding an old refrigerator, remove the doors to reduce the danger of children being trapped inside.

Temperature control

The temperature range of the wine chiller is from the low forties to the mid sixties. The middle range is approximately 55°F.

As with any refrigeration product, there is a slight temperature variance at different locations within the cabinet.

The coolest bottles will be in the rear of the four middle shelves.

The bottles on the top two shelves will be 3°F to 7°F warmer. This is the warmest location.

The bottles in the front of the middle four shelves will be 1°F to 4°F warmer than those at the rear of the shelves.

Position your wine inventory accordingly (i.e. white wines in the cooler zones and red in the warmer zones).

To set the control, turn it to the middle thermostat setting. Once the bottles are loaded, allow at least 48 hours before making any adjustments to the initial setting.

Interior light and switch

The interior light makes it easy to view your wine labels and enhances the display of your collection.

When the switch is in the OFF position, the light comes on only when the door is opened.

Pull-out racks

The bottom five racks pull out so bottles can be more easily added or removed.

Operating Instructions

Wine Chiller

Insert wine bottles

The top two racks each hold six bottles, two deep with the necks alternating front to back.

The middle four racks each hold eight bottles, two deep with necks alternating front to back.

The bottom rack holds six bottles and is loaded with necks facing the rear. Tall bottles should not be loaded on the bottom rack because they may prevent the door from closing.

Loading tips and suggestions

- The bottom rack may be removed for storing “jug” wines.
- You may store magnums and other large bottles on the upper right and left positions or on any of the middle racks by removing the rack directly above them.

The bottles on the top rack, directly under the light, will be exposed to a slightly higher temperature when the light is on. Position your wines accordingly and remember to turn off the light when it is no longer needed.

- Keep wines that you plan to use for everyday drinking and entertaining on the front half of the racks where labels are completely visible. Place wines for aging or longer term storage in the rear.
- Do not allow children to climb, stand or hang on the wine chiller shelves. They could seriously injure themselves and possibly cause damage to the wine chiller.

Unplug the wine chiller before cleaning.

Condenser

Be sure that nothing obstructs the required air flow openings in the front of the cabinet.

For best performance, brush or vacuum lint and dirt from the condenser once a year. Unscrew the grille on the bottom front of the cabinet to access the condenser.

Cabinet

The painted cabinet can be washed with mild soap and water. Rinse thoroughly with clear water. Never use abrasive scouring powders.

Interior

Wash the inside with mild soap and water or baking soda and water.

Do not use an abrasive powder, solvent, polish cleaner or undiluted detergent.

Glass door

Use a glass cleaner or mild soap and water and a soft cloth to clean the glass door. Do not use any abrasive powders.

Door gasket

The vinyl gasket may be cleaned with mild soap and water, a baking soda solution or a mild scouring powder. Rinse well.

Light bulb replacement

Unplug the wine chiller before replacing the light bulb.

The light shield is held in place by three screws. Remove the screws and light shield to remove the light bulb. Replace with the same type bulb—a 15-watt, intermediate base bulb.

In the event of a power failure

If the power fails, open the door as infrequently as possible to maintain the temperature. A gradual rise in temperature should not have any adverse effect on the wine.

If it is extremely hot, you may want to move the wine to the coolest location you can find until power is restored.

Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

Built-In Dimensions

Wine Chiller

Installation dimensions

The wine chiller can be a free-standing model or can be built in using the cut-out dimensions below.

When building in the wine chiller, be sure to allow for a full door swing so you have full access to the pull-out racks.

See the Installation Instructions (Pub. No. 49-6980) for complete directions.

Product dimensions:

Height: 34 1/2" (876 mm)

Width: 23 7/8" (606 mm)

Depth: 24 1/8" (613 mm)

Cut-out dimensions:

Height: 34 1/2–35" (876–889 mm)

Width: 24" (610 mm) minimum

Depth: 24" (610 mm) minimum

Reversing the Door Swing

Wine Chiller

To reverse the door

1. Remove the top hinge pin using a 1/8" Allen wrench.
2. Lift the door off the bottom hinge.
3. Replace the hinge pin in the top hinge.
4. Switch the top and bottom hinges and move them to the other side. If shims are behind the hinges, move them with the hinges. See illustration.
5. Insert the plug buttons into the old hinge holes.
6. Unscrew the light trigger from the bottom of the door. Insert the screws, that were packed with this Use and Care Guide, into the light trigger holes.
7. Before turning the door upside down, new holes will need to be drilled for the light trigger. Be careful not to drill down more than 1/2" or you may damage the door glass. Measure 12 1/4" from the right side and make a mark. Measure 3/4" over from the first mark and make a second mark. Measure 11/16" in from the front edge of the door and make a mark. See illustration. This is where the new holes will be drilled using a 5/32" drill bit. Install the light trigger.
8. Remove the top hinge pin using a 1/8" Allen wrench.
9. Turn the door upside down and place the door on the bottom hinge pin.
10. Install the top hinge pin into the door with the Allen wrench.
11. Open and close the door to test the door swing. If the door drags and does not close evenly, loosen the hinge screws and slip shims behind the hinge. If shims are already behind the hinges, readjust them. Tighten screws and test again.
12. Remove the old nameplate and stick the new Monogram nameplate on the door using the template included.

With the purchase of your new Monogram appliance, receive the assurance that if you ever need information or assistance from GE, we will be there. All you have to do is call—toll-free!

GE Answer Center®

***In the USA:
800.626.2000***

Whatever your question about any Monogram major appliance, GE Answer Center® information service is available to help. Your call—and your question—will be answered promptly and courteously. And you can call any time. GE Answer Center® service is open 24 hours a day, 7 days a week.

In Canada, call 1.888.880.3030.

In-Home Repair Service

***In the USA:
800.444.1845***

***In Canada:
1.888.880.3030***

A GE consumer service professional will provide expert repair service, scheduled at a time that's convenient for you. Many GE Consumer Service company-operated locations offer you service today or tomorrow, or at your convenience (7:00 a.m. to 7:00 p.m. weekdays, 9:00 a.m. to 2:00 p.m. Saturdays). Our factory-trained technicians know your appliance inside and out—so most repairs can be handled in just one visit.

For Customers With Special Needs...

***In the USA:
800.626.2000***

GE offers Braille controls for a variety of GE appliances, and a brochure to assist in planning a barrier-free kitchen for persons with limited mobility.

Consumers with impaired hearing or speech who have access to a TDD or a conventional teletypewriter may call 800.TDD.GEAC (800.833.4322) to request information or service.

Service Contracts

***In the USA:
800.626.2224***

***In Canada:
1.888.880.3030***

You can have the secure feeling that GE Consumer Service will still be there after your warranty expires. Purchase a GE contract while your warranty is still in effect and you'll receive a substantial discount. With a multiple-year contract, you are assured of future service at today's prices.

Parts and Accessories

***In the USA:
800.626.2002***

***In Canada:
1.888.880.3030***

Individuals qualified to service their own appliances can have parts or accessories sent directly to their home. The GE parts system provides access to over 47,000 parts...and all GE Genuine Renewal Parts are fully warranted. VISA, MasterCard and Discover cards are accepted.

User maintenance instructions contained in this guide cover procedures intended to be performed by any user. Other servicing generally should be referred to qualified service personnel. Caution must be exercised, since improper servicing may cause unsafe operation.

Consumer Product Ownership Registration

Dear Customer:

Thank you for purchasing our product and thank you for placing your confidence in us. We are proud to have you as a customer!

Follow these three steps to protect your new appliance investment:

1

Complete and mail your **Consumer Product Ownership Registration** today. Have the peace of mind of knowing we can contact you in the unlikely event of a safety modification.

2

After completing this registration, write your **model and serial numbers in this guide**. You will need this information should you require service. The service number in the USA: 800.444.1845. In Canada: 1.888.880.3030.

3

Read your "Use and Care Guide" **carefully**. It will help you operate your new appliance properly. If you have questions, or need more information in the USA, call the **GE Answer Center® 800.626.2000**. In Canada call 1.888.880.3030

Important: To ensure that your product is registered, mail the separate product registration card. If the separate product registration card is missing, fold and mail the form below. No envelope is needed.

YOUR MONOGRAM WINE CHILLER WARRANTY

Staple sales slip or cancelled check here. Proof of original purchase date is needed to obtain service under warranty.

WHAT IS COVERED

From the Date of the Original Purchase

FULL ONE-YEAR WARRANTY

For one year from date of original purchase, we will provide, free of charge, parts and service labor in your home to repair or replace *any part of the wine chiller* that fails because of a manufacturing defect.

FULL FIVE-YEAR WARRANTY

For five years from date of original purchase, we will provide, free of charge, parts and service labor in your home to repair or replace *any part of the sealed refrigerating system* (the compressor, condenser, evaporator and all connecting tubing) that fails because of a manufacturing defect.

.....

This warranty is extended to the original purchaser and any succeeding owner for products purchased for ordinary home use in Canada.

All warranty service will be provided by our Factory Service Centers or by our authorized Customer Care® servicers during normal working hours.

Should your appliance need service, during warranty period or beyond, call 1.888.880.3030.

WHAT IS NOT COVERED

- Service trips to your home to teach you how to use the product.

Read your Use and Care material.

If you then have any questions about operating the product, please contact your dealer or our Consumer Relations office at the address below, or call, toll free:

1.888.880.3030

- Replacement of house fuses or resetting of circuit breakers.
- Damage to the product caused by accident, fire, floods or acts of God.

- Failure of the product if it is used for other than its intended purpose or used commercially.

- Improper installation.

If you have an installation problem, contact your dealer or installer. You are responsible for providing adequate electrical, plumbing and other connecting facilities.

WARRANTOR IS NOT RESPONSIBLE FOR CONSEQUENTIAL DAMAGES.

Some provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from province to province. To know what your legal rights are in your province, consult your local or provincial consumer affairs office.

Warrantor: Camco Inc. If further help is needed concerning this warranty, write: Manager, Consumer Relations, Camco Inc., 1 Factory Lane, Suite 310, Moncton, N.B. E1C 9M3.
